## D-GERM

### INSTANT WATERLESS HAND SANITIZING GEL

**DESCRIPTION**

D-Germ is an Instant Waterless Hand Sanitizing Gel that is fortified with Moisturizing Aloe, Vitamin E, and Dimethicone. D-Germ kills 99.99% of germs and bacteria in 15 seconds or less, softens and conditions skin, and smells great! Use it often between hand washings to promote optimal health! Even the CDC is recommending these type of products regular use to help reduce the spread of infectious germs and bacteria in the workplace. Effective against MRSA and “C-Diff” too.

D-Germ contains emollients that slow down the skin’s loss of moisture and reduces the loss of natural skin lubricants.

**SPECIFICATIONS**

## USES / BENEFITS

- Food Processing & Handlers
- Ambulances & Emergency Vehicles
- Schools
- Veterinarians & Zoos
- Medical Facilities
- Money Handlers (banks, cashiers)
- Dentists
- Police Departments
- Portable Toilets
- Mortuary & Funeral Homes
- Delivery Vehicles

## DIRECTIONS FOR USE

D-Germ is fast and easy to use. No water is required, no towels, no air dryers. Just dispense a few drops into the hands and rub gently for 15 seconds until the hands are dry. When dry, hands will have a soft, pliable and smooth feel.

### Effective Against:

**Microorganism**

- Acinetobacter baumannii
- Bacillus megaterium
- Citrobacter freundii
- Clostridium difficile (C-Diff)
- Corynebacterium diphtheriae
- Enterobacter aerogenes
- Enterococcus faecalis
- Vancomycin resistant
- Enterococcus faecium
- Vancomycin resistant
- Escherichia coli
- Escherichia coli (O157:H7)
- Klebsiella ozaeae
- Klebsiella pneumoniae
- Lactobacillus plantarum
- Listeria monocytogenes
- Proteus mirabilis
- Proteus vulgaris
- Pseudomonas aeruginosa
- Salmonella enteritidis
- Salmonella typhimurium
- Serratia marcescens
- Shigella dysenteriae
- Shigella sonnei
- Staphylococcus aureus
- Methicillin resistant (MRSA)
- Staphylococcus aureus
- Vancomycin tolerant
- Methicillin resistant
- Staphylococcus epidermidis
- Streptococcus pneumoniae 33400
- Streptococcus pyogenes 19615

### Yeasts and Fungi

- Aspergillus flavus 9643
- Aspergillus niger 9642
- Candida albicans 14053
- Candida tropicalis 13803
- Epidermophyton floccosum 52063
- Penicillium citrinum 9849
- Trichophyton metagrophytes 9533
