

# aero herbicides

Our AERO® line of Herbicides consists of a full range of non-selective weed killers, including oil and water-based products, liquids and granular, non-residuals and soil sterilants.

## HIGHLIGHTS

- Non-selective
- Soil sterilant
- Fast burn-down of weeds
- Oil-based

## TYPICAL PROPERTIES

- Specific Gravity: **0.89**
- Bromacil: **0.98%**
- Isooctyl ester of 2-4-D: **1.09%**
- Petroleum Oil: **97.93%**
- Density: **7.4 lbs/gal**
- Coverage:  
Annual Weeds:  
**1-2 gal/1000 sq/ft**  
Perennial Weeds:  
**3-5 gal/1000 sq/ft**
- Appearance: **Brown liquid**
- Odor: **Petroleum**

## SAFETY CAUTIONS

- Keep out of reach of children.
- May be fatal if swallowed, absorbed through skin or inhaled. Causes skin irritation. Do not breathe spray mist. Do not get in eyes or on clothing.
- Refer to M.S.D.S. and product label for additional safety information and directions for use.

## HMIS RATINGS

## Knock Out Ready-to-use Non-selective Weed Killer

**Controls weeds and grasses through foliage and root contact**

This product is a ready-to-use solvent-based non-selective weed killer. It contains two active ingredients (hence the name Double Kill): Bromacil, which controls weeds through root contact and gives season-long residual control, and 2-4-D which controls weeds through foliage and gives immediate weed burn-down. This weed killer is particularly effective in areas where undesirable vegetation is tall and well-established.

**APPLICATION-** May be used to kill most weeds and grasses on parking lots, fence rows, loading ramps, railroad sidings, storage yards, around buildings and industrial plant sites.

**DIRECTIONS-** To control most weeds for an extended period of time on non-cropland areas, such as: parking lots, fence rows, loading ramps, railroad sidings, storage yards, around buildings and industrial plant sites, apply 2-3½ gallons per 1,000 sq. ft. (80-150 gallons per acre). To control annual weeds and grasses such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, broomsedge, ragweed, lambsquarter and turkey mullein, apply 1-2 gallons per 1,000 sq. ft. (40-80 gallons per acre). For other hard-to-kill perennial weeds and grasses, such as Johnsongrass, saltgrass, bouncing bet, bracken fern and horsetail, apply 3½ gallons per 1,000 sq. ft. (150 gallons per acre).
