Technical Data ONE TOUCH

SILICONE FREE WONDER WAX

DESCRIPTION

This space age surface enhancement and protection system was scientifically engineered to meet the rigorous demands of vehicle care in the 21st Century! It is wonderfully simple to use - yet gives unbelievable results! One Touch is specifically formulated with fast drying polymers, carnauba wax, and other deep gloss producing protectants. Its labor saving formula utilizes deep cleaning restorative agents that quickly remove oxidation, atmospheric deposits, bugs and other finish deleterious impurities. One Touch leaves a beautiful, hard, durable shine that rivals the results of the finest hand rubbed applications that take several hours to apply - yet the One Touch treatment takes less than 20 minutes. One Touch is excellent on fiberglass, painted surfaces, ceramic tile, and truly excels in the automotive arena. When it comes time to protect your investment "One Touch" is all it takes!

USES / BENEFITS

- Deep Cleans
- Rejuvenates
- Restores original luster
- Durable
- Moisturizes & seals
- Long lasting protection

DIRECTIONS FOR USE

Shake well. Always wash surface to be treated. We recommend using North Woods™ Dazzle, Moonshine, or Trailblazer for a complete system. Mist product onto intended surface. Either wipe off immediately with a soft cloth or allow to dry and buff off.
