Technical Data

POWER DOWN

PRECISION ELECTRONIC CLEANING AGENT

DESCRIPTION

Power Down is a breakthrough in environmentally safe contact and circuit board cleaners. Its fast drying, non-residue formula contains no chlorinated solvents, no CFC's or HCFC's, no ozone depleters, and has a 25,000 volt dielectric strength! This highly effective electronic cleaning agent quickly and thoroughly cleans and degreases circuit boards, computers, magnetic tape, printed circuits, gauges, communication equipment, switches, relays, office equipment, typewriters, etc. Truly a fantastic product.

EXCELLENCE
SINCE
1964

USES / BENEFITS

Cleans and degreases:

- circuit boards
- computers
- magnetic tape
- printed circuits
- gauges
- communications equip.
- switches
- relays
- office equipment
- typewriters

SPECIFICATIONS

Color Water White
Specific gravity 0.70
Net Wt. 11 ounces

DIRECTIONS FOR USE

This product is extremely flammable and equipment MUST be de-energized before using. Shake well. Point spray valve toward surface to be cleaned and spray surface until saturated. If necessary, use a brush or cloth to loosen soil. Reapply if necessary. For extra heavy soil, use extender tube to flush off built up deposits. BEFORE re-energizing equipment, allow product to dry and fumes to be completely evacuated.

PRECAUTIONS

Keep out of reach of children.
CAUTION: Do not use near sparks, heat or open flame. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F.

FAST EVAPORATION - OZONE SAFE
NON-CHLORINATED - LEAVES NO RESIDUE
25,000 VOLT DIELECTRIC
NO CFC'S or HCFC's - SAFE ON PLASTICS
