## POWER SCRUB

ULTIMATE FLOOR CLEANING CONDITIONER

### DESCRIPTION

21st Century floor care has now come of age. If you've already invested in our line of Expanded Solids Floor Finishes you've already started to experience the difference this new technology can make. One major difference between our finishes and our competitors finishes is ours do not require yearly stripping! Stripping yearly is only required if floors become too deeply imbedded with dirt - for our finishes do not yellow and deteriorate like almost all other products on the market today. That was the driving force behind the development of Power Scrub. To save you time, labor, money, and headaches while promoting healthy, well maintained, vibrant floors. Power Scrubs great fragranced, proprietary, low foaming formulation quickly deep cleans floors removing the very finest layer of finish, dirt, impurities, and floor finish destroying particles. It conditions and prepares the remaining finish surface to accept the new layer of finish. This condition enhances the bond between new and old layers of finish promoting much greater film compatibility. Power Scrubs non-filming, residue free formula doesn't interfere with this bonding process like most cleaners do! Power Scrub also works great for silicone seal removing off new tile and makes for a great low foaming, non-wax floor cleaner too!

### USES / BENEFITS

- Great fragrance
- Deep cleans floors
- Removes "dead" top finish layer dirt, and floor impurities
- Promotes new film bonding
- Conditions remaining finish
- Low foaming
- Residue & film free
- No phosphates, butyl, glycol ether, caustics, or solvents
- Non-flammable
- No SARA ingredients
- Great for auto scrubbers or mop & bucket method
- BIODEGRADABLE
- Saves time, labor, and money
- Excellent for new tile prep
- Great for non-wax floor cleaning where low foaming is required

### DIRECTIONS FOR USE

#### For Recoat Preparation:

**Automatic Scrubbers:** Always fill solution tank with appropriate amount of water first, then add Power Scrub to equal 8.5 oz. per gallon of water. **Mop & Bucket Cleaning:** Dilute Power Scrub 8.5 oz. per gallon of water. To maximize cleaning results, apply diluted solution onto intended surface and allow product to "work" 1 to 3 minutes. Agitate, and pick up. When removed properly no rinsing is required - visually check floor before proceeding. If floor condition is unsatisfactory additional scrubbing or stripping may be required.

#### FOR NON-WAX FLOOR CLEANING DILUTE AS FOLLOWS WITH WATER:

- Light Soil ..... 2oz. per gallon
- Medium Soil.....4oz. per gallon
- Heavy Soil ..... 8oz. per gallon
- Heavy Soil ..... 13oz. per gallon
- Ex. Heavy Soil .. 26oz. per gallon

### SPECIFICATIONS

Color .....	Green
Fragrance .....	Great
pH .....	9.0
Foam .....	Very low
Flash Point .....	None
Fumes .....	None
Emulsification .....	Excellent
Biodegradability .....	Complete

### PRECAUTIONS

**Keep Out Of Reach Of Children Institutional & Commercial Use**  
**CAUTION:** May cause skin and eye irritation. Harmful if swallowed. **FIRST AID:** In case of contact, flush eyes and skin thoroughly with water. Get medical attention if irritation persists. If inhaled, get to fresh air. If swallowed, drink large quantity of water. Do not induce vomiting.
