# SANI SPRA

READY TO USE CLEANER / SANITIZER

#### DESCRIPTION

Finally a ready to spray, EPA registered cleaner/sanitizer perfect for all sanitizing applications. Nonflammable and nonhazardous, Sani Spray is effective against salmonella, Ecoli, listeria, and much, much more. It's safe for all food contact surfaces! Sani Spray totally removes all the guess work associated with dilutible sanitizers such as too high of a dilution, too low of a dilution, and/or if the solution has been changed lately! Diluted sanitizers must be prepared fresh for each days use, plus they do no cleaning at all! Lets face it - if sanitizers aren't mixed properly they pose more dangers than not using them at all! Sani Spray comes properly labeled and is ready to clean and sanitize where ever and when ever you are!

This product is excellent for use in federally inspected meat and poultry plants as a sanitizer for all surfaces not always requiring a rinse. Sani Spray is an effective cleaner - sanitizer for use on food contact surfaces. This product can be used with a trigger sprayers, sponge or by soaking.

#### **USES / BENEFITS**

Use this product for sanitizing and cleaning of equipment and utensils in:

- food processing
- dairy industries
- nursing and assisted living homes
- restaurants
- institutional kitchens
- meat and poultry processing plants

#### DIRECTIONS FOR USE

Simply spray Sani Spray on and wipe off.

Apply this product to precleaned hard nonporous surfaces with cloth, mop sponge, or sprayer or by immersion. Surfaces must remain wet for 60 seconds. Drain thoroughly and allow to air dry before reuse.

#### **PRECAUTIONS**

Keep Out Of Reach Of Children

#### **SPECIFICATIONS**
