## SOLAR SHINE

HIGH PERFORMANCE THERMOPLASTIC SPRAY BUFF

### DESCRIPTION

Solar Shine High or Low Speed Buffing Restorer is a 100% active thermoplastic buffing solvent designed to make the properly finished floor -- Fantastically Beautiful! Simply spray on floors while buffing and remove scratches, black marks, dirt, dullness and scuff marks.

Solar Shine has an exclusive formulation that is self-emulsifying and will never allow buildup or floor powdering.

Regular use of Solar Shine will result in savings unheard of for labor and materials involved with re-stripping.

Use this product with The Solar System Floor Care Program and your floors will never have been the wet look as you will behold with this money savings system.

Solar Shine can also be used on any competitive floor finish products that have a minimum four coat base

### USES / BENEFITS

- **Effective repair of all floor finishes.**
- **The perfect product for high or low speed floor care programs.**
- **Simple to use ... spray ahead of buffing machine path and buff to high gloss.**
- **Removes scratches and black marks immediately.**
- **Stops floor finish powdering.**
- **Reduces stripping by 75% -- and the expensive labor costs associated with stripping.**

### PRECAUTIONS

Keep Out Of Reach Of Children

 Active Ingredients ..... 100%  
 pH ..... 8.2 - 8.7  
 Heel Mark Resistance .. Excellent  
 Detergent Resistance .. Excellent  
 Powdering Resistance .. Excellent  
 Slip Resistance (James machine) .. 65

### DIRECTIONS FOR USE

- 1.) Remove gross soil, and dust mop floor with untreated or water base treated dust mop.
- 2.) Spray a light mist of Solar Shine on floor in front path of floor machine. DO NOT OVERWET!
- 3.) Using a nylon or polyester spray buff pad, buff out this fine mist to a super high gloss shine.
- 4.) Flip or change pad as necessary.
- 5.) After spray buffing, dust mop floor again if necessary to remove any accumulated dust from pad.

PLEASE NOTE: For proper high gloss results using Solar Shine, a proper base must be established on the floor. This product is outstanding for use with The Solar Floor Care Program!
