Controls mildew growth on fabric for 14 days - 21 days on hard surfaces.

DIRECTIONS FOR USE

AIR SANITIZING

TB Plus Spray should be used as a disinfectant space spray in any and all areas of no food contact. Point spray valve upwards to center of room and spray for three to five seconds. TB Plus Spray will leave the entire room smelling fresh & clean!

SURFACE DISINFECTION

Hold can six to eight inches from surface and spray until desired area is wet. According to the E.P.A. - surfaces being treated for disinfection must remain wet for 10 minutes. Allow to air dry. Dries leaving NO OILY FILM.

MILDEW CONTROL

Spray desired surface until moist. Do not spray on rayon fabrics or on polished wood furniture. Repeat application periodically to maintain control.

PRECAUTIONS

Keep out of childrens reach. Follow label use directions.
