TRAPPER

100% NATURAL CITRUS DEGREASER & DEODORIZER

DESCRIPTION

Trapper is a 100% pure citrus solvent of orange oils. The refreshing citrus fragrance will mask any possible odor source and completely deodorize.

This formula was originally produced for removing animal fat and sludge from grease traps and drains. It works terrific for these areas, but is also the product for many other uses. Your imagination must be your guide along with common sense.

Trapper will totally emulsify heavy grease and oil deposits from virtually any surface. It is non-conductive itself, but cannot be used for non-conductive cleaning. It is rinsable with water and totally biodegradable.

FANTASTIC SOLVENCY

TRAPPER IS EFFECTIVE FOR:

- Flooring Adhesives •Cutback
- Mastics •Glues •Silicones •Labels
- Rubber •Asphalt •Greases •Tar
- Creosote •Lipstick •Crayon •Ink
- Wax •Tape Removal •Carbons

SAFELY USE ON:

- Boats •Cars •Trucks •Glass
- Tools •Concrete •Plexiglass
- Metals •Tiles •Fans •Acrylics
- Grease Traps •Drains •Traps

USDA Authorized C-1

USES / BENEFITS

- NON HAZARDOUS
- NON ACID - NON CAUSTIC
- CONTROLS ODORS
- OPENS GREASE TRAPS
- CLEANS GREASY FLOORS
- REMOVES ADHESIVES
- DIP CLEANING OF PARTS
- NO HAZARDOUS INGREDIENTS
- WET WELLS & SEWER LINES
- REMOVES GUM
- FANTASTIC SOLVENCY

PRECAUTIONS

KEEP OUT OF CHILDRENS REACH
Caution: Contains natural organic compounds. Do not take internally. Harmful if swallowed. Will defat skin. Combustible liquid, keep away from sparks or flames.

SPECIFICATIONS

Fragrance	Citrus
pH	8.0
Water Rinsable	Yes
Flash Point Undiluted T.C.C. ...	125°F
For Non-conductive Cleaning ...	No
Residue	Trace
Hazardous ingredients as identified by EPA Code Section 261.3	NONE

DIRECTIONS FOR USE

Trapper will not harm most surfaces, but always pretest an area first. Drains and grease traps, pour 4 - 8oz. into drain and allow to work for 60 minutes. Then flush with water for several minutes. In garbage disposals, pour in 4 - 8oz. and let work for 5 to 10 minutes. Rinse with hot water.

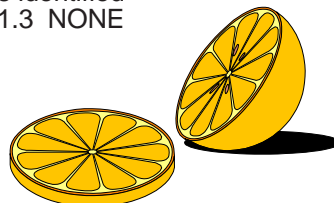

For greasy walls, machines, equipment, floors etc., use straight or diluted with water. Use warm water preferably but cool water is satisfactory. Apply generously and allow Trapper to do the working. Let work 5 minutes and rinse with clean water.

USE YOUR IMAGINATION

For odor control, mix 2 - 10oz. of Trapper per gallon of water. Apply with sprayer to odor problem area.

FOR ELECTRIC MOTORS -- ASK FOR NATURES WAY II
