Technical Data

DUMPSTER CLEAN

DOCK AND DUMPSTER CLEANER

DESCRIPTION

North Woods® Dumpster Clean delivers a super concentrated bathing foam loaded with biodegradable surfactants and bio-active cultures. Applied with a garden sprayer or foaming equipment, it produces a rich, clinging consistency ideally suited for these odiferous areas.

Dumpster Clean's high viscosity coating sticks to dumpsters, trash chutes, garbage cans, docks, compactors, and other surfaces to increase contact time with greases and organic soils. This unique ability drastically improves cleaning ability. The removal of the biofilm and filth greatly reduces insect attraction, and ends noxious odors!

USES / BENEFITS

- **Environmentally friendly**
- **Biodegradable**
- **Foam clings to surface**
- **Extended contact time for better cleaning**
- **Easy to use**
- **Extremely economical**

Ideal for cleaning and odor control on docks, dumpsters, trash bins and chutes, and other hard surfaces.

SPECIFICATIONS

Color ..... Light Tan
Biodegradability ..... Complete
Odor Control.....Exceptional
Fragrance.....Fresh

DIRECTIONS FOR USE

Can be used with a garden sprayer, or with the North Woods® Foaming Applicator. Dilute Dumpster Clean by adding 2 - 4 oz. of cleaner per gallon of water, depending on severity of soil. Apply evenly to surface - rinsing optional. Repeat daily or as needed.

PRECAUTIONS

Keep Out Of Reach Of Children
