Technical Data

ANTI-SEIZE

REDUCES SEIZING

DESCRIPTION

A general purpose anti-seize lubricant, sealant, and protective coating used wherever metal contacts metal. Covers any metal with a protective resistant coating that acts as a barrier to withstand extreme heat (to +1000˚F), pressure, and friction. Stops corrosion, is non-melting, waterproof and highly resistant to chemicals, solvents and gases (except oxygen). Especially recommended for applications in temperature ranges from -20˚F to +1000˚F. Contains synthetic oil, extremely fine aluminum & graphite particles.

PRECAUTIONS

Keep Out Of Childrens Reach

USES

All threaded fittings including all nuts, bolts and screws; hand and motor operated valves; gaskets, flanges and "O" rings; bushings, bearings, rollers and conveyors; gears, transmission boxes, chains and drives; electric motors, compressors, hoists, turbines and winches; furnaces, burner assemblies, regulators, pumps, valve stems, control chests and headers; man and hand hold and inspection doors; cylinder head, manifold and stud assemblies; fuel injectors, pre-combustion chambers, valve cages, turbo-charger fittings, guides and thread tubing; keyways and spark plugs; torque rod pins and tubes; air cylinder assemblies, pneumatic cylinder shafts, air slides and axle shafts.

DIRECTIONS FOR USE

Shake can well before using. Clean surface thoroughly. Apply only enough to form a solid film over contact surfaces of threads, gaskets, bushings, etc. Assemble and wipe off excess.

SPECIFICATIONS

Color ..... Silver Gray
Fragrance ..... Etheral Solvent
Specific Gravity 1.10
Storage Stability ..... 1 year +

EXCELLENCE SINCE 1964

CONTAINS NO CHLORINATED OR FLUORINATED SOLVENTS
