AQUA BREAK

AQUEOUS POWER BREAK

DESCRIPTION

AQUA BREAK is a blend of heavy-duty alkaline builders and sequestering and soil suspending agents. AQUA BREAK supplies additional power to release even the most difficult soil and grease stains. Once released from the fabric, the soil suspending agents prevent the soil from redepositing on the fabric. AQUA BREAK may be used alone in a break cycle or in conjunction with detergent to give stain free results. AQUA BREAK is specially formulated to be completely compatible with all other North Woods® Laundry Products. **DO NOT USE ON NATURAL SILK OR WOOL.**

USES / BENEFITS

- Extremely economical
- Saves Time, Saves Money
- Biodegradable
- Powerful alkaline builders
- Releases tough stains
- Suspends soils for deep clean
- Works even in harder water conditions
- Automatically dispensed
- No mess, no fuss
- Contains sequestering agents
- Protects your investment
- Prevents soil redeposition
- Removes tough soils

DIRECTIONS FOR USE

This unique product is formulated to be dispensed through an automated injector system, assuring the lowest possible use cost.

AQUA BREAK is specially formulated to be used with North Woods® Liquid Laundry Detergents or in conjunction with Liquid Laundry Bleach for a personally tailored laundry operation. AQUA BREAK is formulated to be dispensed directly from the shipping container through an automated injector system into the laundry machine, thereby eliminating hand feeding from powder hoppers and possible spillage. AQUA BREAK should not be used where solution contact with aluminum will be made. While AQUA BREAK is completely soluble at all normal water temperatures, optimum soil release will be obtained in hot (140° F to 160° F) temperatures.

SPECIFICATIONS

Appearance	Clear liquid
pH	14
pH of 1% solution	12.7
Specific Gravity	1.3 (11.32 lbs /gal)
Penetration	Immediate
Solubility	Complete
Biodegradable	Yes
Rinsing	Complete
Foam	Low
Stability	1 Year
Total Alkalinity	.25%

PRECAUTIONS

Keep out of reach of children
Highly alkaline liquid. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult a physician immediately. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. Do not induce vomiting. Obtain prompt medical attention. Consult Material Safety Data Sheet for further information on product acceptability.
