HEMICAL CORPORATION

## Technical Data BIG CAT

Mega Concentrate Heavy Duty Degreaser

Big Cat is North Woods® latest breakthrough in environmentally safe, extreme concentration, detergent compression technology. Mega concentrated base chemistry allows for a fantastic slurry to be formulated, without the added cost and weight of water. With Big Cat, you're paying for only the mega concentrate and adding your own water at your facility - thus creating a premium concentrated cleaner. From there dilute Big Cat as you would any premium degreasing concentrate and watch Big Cat do its thing! You won't believe the results, the space savings, and the economy! Everything comes supplied for you in the kit....simply add water!

## **USES / BENEFITS**

- Cleans and Degreases
- Contains No Section 313 Chemicals
- No special equipment needed to use
- MEGA Concentrated for unparalleled economy
- Low foaming
- Saves space
- Biodegradable
- No VOC's

## **DIRECTIONS FOR USE**

**Light Soil:** Dilute 2 oz. per gallon of water

**Medium Soil:** Dilute 4 oz. per gallon of water

**Heavy Soil:** Dilute 8 oz. per gallon of water

**Extra Heavy Soil:** Dilute 13 - 16 oz. per gallon of water

**NOTE:** This product is made with a metal corrosion inhibitor. Clear water rinsing tends to remove the inhibitor. Hot Water is always an assist to cleaning.

## **SPECIFICATIONS**

Color	Red Liquid
	Characteristic
pH (conc)	14

SINCE 1964
