CHEMICAL CORPORATION

Technical Data BIG GREEN

Mega Concentrate Heavy Duty Degreaser

DESCRIPTION

Big Green is North Woods® latest breakthrough in environmentally safe, extreme concentration, detergent compression technology. Mega concentrated base chemistry allows for a fantastic slurry to be formulated, without the added cost and weight of water. With Big Green, you're paying for only the mega concentrate and adding your own water at your facility - thus creating a premium concentrated cleaner. From there dilute Big Green as you would any premium degreasing concentrate and watch Big Green do its thing! You won't believe the results, the space savings, and the economy! Big Green is DFE certified too! Everything comes supplied for you in the kit....simply add water!

SPECIFICATIONS

USES / BENEFITS

DIRECTIONS FOR USE

Light Soil: Dilute 2 oz. per gallon of water

Medium Soil: Dilute 4 oz. per gallon of water

Heavy Soil: Dilute 8 oz. per gallon of water

Extra Heavy Soil: Dilute 13 - 16 oz. per gallon of water

Floor With Tire Marks: Dilute 8 oz. per gallon of water

Floor With Heavy Tire Marks: Dilute 15-30 oz. per gallon of water

NOTE: This product is made with a metal corrosion inhibitor. Clear water rinsing tends to remove the inhibitor. Hot Water is always an assist to cleaning.
