Technical Data

BURST

CONCENTRATED EMULSIFYING LIQUID LAUNDRY DETERGENT

DESCRIPTION

BURST is a concentrated laundry detergent containing a specific blend of soil emulsifying agents. BURST is formulated with advanced optical brighteners which provide superior results on all washable fabrics and is safe for synthetic and natural fibers. BURST removes stubborn soil and keeps it in suspension, preventing redeposition on fabric. BURST rinses quickly and completely, does not contain harsh alkalis, and is effective in all water hardness conditions and temperatures. BURST is totally biodegradable.

USES / BENEFITS

- Extremely economical
- Saves Time, Saves Money
- Biodegradable
- Contains optical brighteners
- Fresh fragrance
- Suspends soils for deep clean
- Works even in harder water conditions
- Fantastic in all temperatures
- Automatically dispensed
- No mess, no fuss
- Protects your investment
- Excellent white retention
- Removes tough soils
- Excels on naturals & synthetics

DIRECTIONS FOR USE

This unique product is formulated to be dispensed through an automated injector system, assuring the lowest possible use cost.

BURST Concentrated Emulsifying Liquid Laundry Detergent is specially formulated to be used with automated injector systems. BURST can be dispensed directly from the shipping container, thereby eliminating hand feeding from powder hoppers and possible spillage. For optimum soil release, use in hot (140°F to 160°F) water for removing normal soils. Effective soil removal, at the concentrations and temperatures given, may be obtained during a normal 6 to 10 minute wash cycle.

SPECIFICATIONS

Appearance	Clear blue liquid
pH	12.6
pH of 1% solution	10.1
Specific gravity	1.03 (8.6 lbs/gal)
Penetration	Immediate
Stability	1 Year
Wetting Ability	Excellent
Biodegradable	Yes
Foam	Moderate
Rinsing	Complete
Fragrance	Fresh

PRECAUTIONS

Keep out of reach of children
Alkaline liquid. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult a physician immediately. If ingested, drink large amounts of milk, milk of magnesia, or gelatin, or if these are not available, drink large amounts of water. DO NOT induce vomiting. Obtain prompt medical attention.
