Technical Data

COMPLETE

POWDERED MACHINE DISHWASHING DETERGENT

DESCRIPTION

COMPLETE is a granular, chlorinated, machine warewashing compound that is designed to handle moderate soil loads in soft to medium-hard water at normal warewashing concentrations. The stable chlorination provided by **COMPLETE** assures removal and subsequent prevention of stain buildup on china and plastic ware. **COMPLETE** is not only packed with strong cleaning and destaining agents, but also the glaze and metal protectants necessary to assure a safe and effective wash. **COMPLETE** will deliver sparkling ware with one pass through the dishmachine and can be used in conjunction with a North Woods® rinse agent. **COMPLETE** is formulated to be an excellent and economical dishmachine detergent

SPECIFICATIONS

Appearance White powder

ppm in 1% solution
 Caustic Present
 Foaming Low
 Rinsing Excellent
 Water Hardness Tolerance:
 15 Grains Per Gallon at 0.3%
 10 Grains Per Gallon at 0.2%
 5 Grains Per Gallon at 0.1%

USES / BENEFITS

- Extremely economical
- Saves Time, Saves Money
- Deep cleans
- Leaves wares sparkling
- Biodegradable surfactants
- Excels in all temperatures
- Works even in harder water conditions
- Built in soil & stain removers
- Glaze and metal protectants
- Safeguards your investment
- Simple to use
- Metal protectors
- Contains water softening agents

PRECAUTIONS

Keep out of reach of children
 Alkaline powder. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult physician immediately. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. DO NOT induce vomiting. Obtain prompt medical attention.

DIRECTIONS FOR USE

This unique product is formulated to be manually dispensed into dishwasher. 1/4 to 1/3 cup per load will give fantastic results, dependant upon soil load.

Titrate with Institutional Alkalinity Test Kit. Use range is 0.1% to 0.3%, or 3 to 9 drops (each drop = .033%) using a 10 ml sample and 3 drops of Phenolphthalein Indicator. Select actual use concentration to handle water hardness and soil load.
