## DRIVE THRU

GREASE AND OIL SPOT REMOVER

### DESCRIPTION

This powerful yet safe degreaser is the parking lot and drive thru manager's friend. DRIVE THRU™ was designed to remove the unsightly mess of oil and grease deposits from concrete drive thru areas, parking lots, handicapped marked stalls and wherever these unsightly deposits abound. Superior grease and oil emulsifiers are the arsenal this chemical is loaded with. Totally biodegradable and user friendly make this a helpful tool in combatting the war on pollution.

Use with DRIVE THRU™ deluxe gallon sprayer for ease of use, and controlled economy.

**EXCELLENCE  
SINCE  
1964**

### DIRECTIONS FOR USE

Drive Thru™ grease and oil remover was specifically formulated for the removal of ugly grease and oil deposits on concrete parking lots and stalls. Can be used cautiously on black top areas also. Super for the drive thru markets.

Mix Drive Thru™ into a one gallon spray container using the mix dilution that meets your needs.

**Medium Soil .... 4 oz. per gal.  
Heavy Soil ..... 8 oz. per gal.  
Ex. Heavy ..... 12 oz. or more  
Depending On Soil Load!**

### MIX THOROUGHLY

Spray evenly over soiled area and let stand wet for several minutes. Scrub area with deck brush and rinse with water in buckets or use hose.

**WARNING:** Do not use on freshly sealed or newly stripped black top. Be careful on painted stripes or handicap decals.

**USE WITH OUR DRIVE  
THRU SPRAYER FOR  
GREATER RESULTS**
