# EVER GREEN™ FLOOR FINISH

## DESCRIPTION

Ever Green Floor Finish is part of the overall North Woods™ Ever Green family of environmentally preferred products. The North Woods™ Ever Green line of products are formulated and packaged to have a reduced environmental impact, while still maintaining superior performance.

Ever Green Floor Finish was developed utilizing state of the art polymer technology to provide a premium environmentally preferred floor finish. This high solids finish offers a clear, deep gloss and requires fewer coats to achieve the desired results. It's off the mop gloss, leveling ability, ease of use, simple maintenance, and black heel resistance - rivals that of any "non-green" finish available today!

Please dispose of this product and waste generated from this product in accordance with all applicable local, state, and Federal regulations.

## PRECAUTIONS

Keep Out Of Reach Of Children

EXCELLENCE  
SINCE  
1964

## USES / BENEFITS

- High gloss right off the mop!
- Extended wear formula
- Holds gloss between burnishing
- Self sealing
- Excellent leveling
- Reduces labor
- No zinc cross-linking agents
- Less than 0.5% total phosphorous
- No ammonia
- No flammable solvents
- No 2-Butoxyethanol
- No environmentally toxic preservatives
- No alkyl phenol ethoxylate (APE)
- No bio-accumulative fluorocarbon surfactants
- No added fragrance
- VOC's do not exceed established limits for applicable category
- Low environmental impact packaging
- Available in Synergy or in gallons

## SPECIFICATIONS

Color .....	Liquid White
Color Dried .....	Crystal Clear
Coverage .....	3000+ sq. ft./gal.
Drying Time .....	30 -40 min. per coat
Gloss (Gardner) .....	1 Coat 80 - 85
	2 Coats 90 - 95
Total Solids .....	> 28.0 %
pH .....	7.0 - 8.5
Leveling .....	Excellent
Heel Mark Resistance .....	Excellent
Powdering Resistance .....	Excellent
Fragrance .....	Mild
Freeze/thaw stability .....	3 cycles
Shelf Life .....	1 year
Specific Gravity .....	1.03

## DIRECTIONS FOR USE

Recommended for use on all types of resilient tile flooring and properly prepared hard surfaces.

### RESTORATIVE MAINTENANCE:

Completely remove all old wax, finish, and soil from floor surface following strip procedures on Ever Green Stripper label. Floor surface must be clean, dry and free of residue before finish is applied. Rinse with clean water if necessary. Apply finish in uniform, thin to medium coats using a clean synthetic finish mop or Synergy Applicator System. Allow each coat to dry thoroughly before applying additional coats, usually 30 - 40 minutes. 4 - 5 coats of finish are recommended. **Note: This product is a self sealing finish, however, if tile is old, worn, or porous, initially applying 1 - 2 coats of a sealer will enhance gloss and long term performance.**

### ROUTINE MAINTENANCE:

Sweep large debris and dust mop (using water based treatment). Damp mop or automatic scrub using Blue Ox or Ever Green Neutral pH Cleaner. Buff or burnish the floor as desired. The use of Solar Burst is recommended to condition the floor and extend the time between top scrub and recoating.

### INTERIM MAINTENANCE:

Sweep large debris and dust mop (using a water-based treatment). Top scrub the floor using Power Scrub and recommended floor pad to remove the top soiled layers of finish. Floor surface must be cleaned, dry and free of residue before finish is applied. Apply 1 - 2 coats of finish is directed above. **Note: Slip resistance meets or exceeds (ASTM D 2047-93) James Machine 0.5 minimum.**
