

Environmental Health & Sanitation Chemicals

EVER GREEN

Enviro Friendly Mops

DESCRIPTION

This environmentally friendly product is part of North Woods™ Ever Green Program. North Woods™ Ever Green products are formulated and packaged to have a reduced environmental impact while still maintaining superior performance.

In today's ever changing environment, people world wide are looking for opportunities to contribute to the cumulative effort of improving the current state of Earth's ecosystem. One such effort is the use of engineered fibers produced entirely from recycled materials, which include reclaimed components such as cotton and PET plastic bottles. By incorporating recycled PET plastics into new, usable goods we can effectively diminish waste going into our landfills while also conserving the raw natural resources that would otherwise be used for the same purpose.

**EXCELLENCE
SINCE
1964**

MOP PERFORMANCE STATISTICS & ADVANTAGES

- Absorbs over 5 times its weight in water
- Releases almost 40% upon wringing
- Over 25% better performance than competitive all-synthetic wet mop yarns.
- Dries amazing fast - 90% dry after only the spin cycle of the washer
- Air dries 100% overnight
- Much longer lasting and lower linting than competitive yarns
- Less than half the weight loss in laundry than competitive yarns
- Recycling decreases PET plastic landfill waste
- Preserves natural resources
- Can help meet LEED-EB program goals
- Production reduces greenhouse gases and saves energy

PET Points to Consider

- Since 1995 PET waste has increased 300%
- There are currently 4 tons of PET wasted for every ton recycled.
- 96 PET bottles equal 12 large mops.
- It takes 2,000 years for PET to breakdown in landfills.
- Eight 16 ounce PET bottles can make 1 sq. ft. of polyester carpet, 1 x-large t-shirt, 2 baseball caps, or one large mop head.
