

Environmental Health & Sanitation Chemicals

TERIGHT STUFF SOAP SYSTEM™ CERNSTUFF SOAP SYSTEM™ CERNSTUFF USDA E-2 HANDWASH SANITIZER

DESCRIPTION

One step hand wash/sanitizer skin cleanser. Meets USDA requirements as an E-2 approved product for Food & Poultry Plants. Contains Chlorhexidine Gluconate combined with a Quaternary Ammonium Chloride. This effective germicide prevents the transfer of germs by killing them.

Antibacterial Hand Wash Sanitizer is a USDA Authorized E-2 Rated Chemical designed for food service areas, meat rooms, and all USDA and FDA inspected facilities.

Germ Stuff undiluted and diluted with water, 1 to 1 and 1 to 3 exceeds the USDA germicidal activity requirements. (equivalent to 50 ppm available chlorine) against the following: Staphylococcus aureus, ATCC 6538 (Phenol Resistance 1:60), and Salmonella typhi, ATCC 6539 (Phenol Resistance 1:80), Official Methods of Analysis of the A.O.A.C. Twelfth Edition, Section 4 -- Disinfectants, Available Chlorine Germicidal Equivalent Concentration.

DIRECTIONS FOR USE

Meat rooms, Food Plants, Fish Plants, Restaurants etc. use this fantastic deep cleaning product by dispensing ONE STROKE from The Right Stuff Soap Dispenser. Effectively reduces the bacterial flora of the skin and sanitizes all areas cleaned. GERM STUFF is antibacterial and helps prevent dermatitis and cross infection. Added emollients condition the skin and maintain proper pH balance.

GERM STUFF is a one step hand wash process. Rinse hands thoroughly after each use.

TRY IT --- THERE IS NONE BETTER!
