TUBERCULOCIDAL DISINFECTANT - KILLS BLOODBORNE PATHOGENS

This product is the latest breakthrough in disinfectant technology that combines the kill of much harsher disinfectants with the user friendly benefits of "quats". The best of both worlds comes together in Mega Quat! This ready to use product features a unique blend of two quaternary surfactants that provide a disinfectant/cleaner with unequaled ability to kill a wide range of grampositive and gram-negative microorganisms. Finally a "quat" product that is effective against Tuberculosis! It's non-streaking, pleasant fragranced formula is also effective against HIV-1 (AIDS), Staph aureus, Salmonella, Pseudomonas, Canine Parvovirus, E-coli 157:H7 and much more! Mega Quat not only outperforms other disinfectants in the efficacy arena, but its cleaning ability is unmatched by other "quat" disinfectants making it the perfect choice for use in nursing homes, hospitals, clinics, and schools. It's Ecoli 157:H7 efficacy makes it the ideal choice for food plant restrooms and breakrooms. Animal hospitals, and veterinarians will love the cleaning power, refreshing fragrance, and the ability to kill canine parvovirus! Ambulance services finally have a mobile bloodborne pathogen answer!

# **USES / BENEFITS**

## SUPER CLEANER

- LEAVES SURFACES FILM FREE
- FRESH FRAGRANCE
- COMPLYS WITH OSHA BBP RULE
- COMPLYS WITH COLLECTION
   NON FLAMMABLE
   NO PHENOLS OR IODINES
   READY TO USE
   FULLY LABELED QUARTS
   COLLY LABELED QUARTS

- SAVES LABOR COSTS

### Kills in 1 Minute or Less

- Norwalk Virus (A Norovirus)
- HIV-1 (associated with AIDS)
- Feline Calicivirus
- Rabies virus

# Kills in 2 Minutes

- Influenza A
- SARS associated coronavirus

# Kills in 3 Minutes

- Methicillin Resistant Staphylococcus aureus (MRSA)
- Vancomycin Resistant Enterococcus faecalis (VRE)

  Community Associated Methicillin
- Staphylococcus aureus(CA-MRSA)
- Rotavirus
- Rhinovirus Type 39
- Paramyxovirus (Mumps)Escherichia Coli 0157:H7
- Pseudomonas aeruginosa
- Salmonella Choleraesuis Staphylococcus aureus
- Listeria monocytogenes
- Enterococcus faecium
- Escherichia coli
- Salmonella typhiCornyebacterium ammoniages

- Kills in 5 Minutes

   Hepatitis B Virus (HBV)

   Hepatitis C Virus (HCV)

- Hepatitis A Virus (HAV)
- Canine Parvovirus
- Poliovirus
- Mycobacterium bovis (TB)

Tricophyton matagrophytes (Athlete's foot fungus)

# DIRECTIONS FOR USE

Used as directed, MEGAQUAT offers effective disinfection against pathogenic Virus'. Simply spray on with trigger sprayer attached. Hold six to ten inches from surface. Apply liberally and allow product to penetrate and do the work. Leave wet for ten minutes. Scrubbing not necessary. Wipe off with clean cloth, paper towel, sponge, or mop. See product label for full directions.

Mega Quat is definitely The New Breed Disinfectant Cleaner for all your general disinfection requirements. Use it throughout your facility to clean, disinfect, refresh, and bring peace of mind!
