Fechnical Data /IEGA-CIDE DYNAMIC CONCENTRATE CLEANER & ODOR COUNTERACTANT

DESCRIPTION

MEGA-CIDE is a patented, ready to use quart, disinfectant spray formulation. Germs contacted in the air, or on any surfaces will be terminated by the active formulation of Mega-Cide.

MEGA-CIDE makes a perfect final touch after rest room cleaning. It's wet dispersion makes it ideal for total surface disinfection. It is ideally suited for schools, private industry, or the retail work place in fighting absenteeism. Kills most pathogenic bacteria and virus'.

For Hospitals, Nursing Homes and Clinics, it provides an excellent kill power for Staph -- Salmonella -- and Pseudomonas. It is also viricidal, fungicidal, and tuberculocidal and registered by EPA as killing HIV-1 (AIDS) on pre-cleaned environmental surfaces.

SPECIFICATIONS

Fragrance	Fresh
Fragrance Residue	Nil
рН	
Shelf life	15 mo.
Spray pattern USDA	Wet
USDÁ	C-1

USES / BENEFITS

- Disinfect hard surfaces with a one second spray and allow to air dry. Disinfection activity provides effective kill.
- Deodorizes by eliminating all airborne malodors. Unique formula kills original source bacteria.
- Dries quickly leaves no oily film.
- Residual claims here.

EFFECTIVE AGAINST:

- The Corona Virus tested was Human Corona virus ATCCVR740.
- Salmonella Choleraesuis
- Staphylococcus Aureus
- Pseudomonas Aeruginosa
- Trichophyton Mentagrophytes
- Mycobacterium Tuberculosis
- Herpes Simplex 1 & 2
- Influenza A2HK
- Coxsackie Virus B5A
- Adenovirus-2
- Poliovirus 1 & 2
- Rotavirus SA-11
- Rhinovirus
- Vaccinia Virus
- Cytomegalovirus

- Respiratory Syncytial Virus
 HIV 1 (AIDS Virus)
 Mildew (hard surfaces and fabric)
- Avian Influenza Virus
- Avian Bronchitis Virus
- Avian Laryngotracheitis
- Hog Cholera Virus
- Pseudirabies Virus (hard, non porous surfaces)

DIRECTIONS FOR USE

AIR SANITIZING

Mega-Cide should be used as a disinfectant spray in any and all areas of no food contact. Point trigger head upwards to center of room and spray for one second in various areas of room. Mega-Cide kills most pathogenic bacteria and virus' including Mycobacterium Tuberculosis.

SURFACE DISINFECTION

First remove any soils from surface to be disinfected. Hold trigger six inches from surface and spray until area desired is wet. Allow to air dry. Dries quickly leaving NO OIL FILM.

PRECAUTIONS

Keep Out Of Reach Of Children

Label use directions should be followed carefully. Can cause eye and skin irritation.
