

Environmental Health & Sanitation Chemicals

Technical Data

SCREEN CLEAN

ANTI-STATIC • ANTI-SOILING MICRONIC CLEANER

DESCRIPTION

Screen Clean is the latest technology in formulating a antistatic, anti-soiling protective cleaner and repellent for all CRT, TV, radar, tracking, terminal, video, photo copy SCREENS.

When used as directed it leaves no messy residue or film. Harmless to surfaces normally surrounding these screens also.

If used regularly, Screen Clean reduces eye fatigue by 50%, and reduces the static causing dust adhesion.
