Technical Data

SUPRA SOFT

CONCENTRATED SOFTENER & SOUR AGENT

DESCRIPTION

SUPRA SOFT concentrated liquid sour/softener - softens and fluffs all fabrics and contributes to "wrinkle free" results. SUPRA SOFT eliminates static cling and reduces extractor time. The use of this product in the proper concentration neutralizes all residual alkalinity which is critical in nursing homes, assisted living, and hospitals where soft, irritation-free garments and bed linens are needed. SUPRA SOFT also contains optical brighteners to enhance appearance of colors and whites. Safe for use with natural and synthetic fabrics.

USES / BENEFITS

- Concentrated
- Extremely economical
- Saves Time, Saves Money
- Biodegradable
- Contains optical brighteners
- Clean fragrance
- Softens and fluffs
- Produces wrinkle free results
- Automatically dispensed
- No mess, no fuss
- Protects your investment
- Enhances colors & whites
- Neutralizes alkalinity protecting residents and patients

DIRECTIONS FOR USE

This unique product is formulated to be dispensed through an automated injector system, assuring the lowest possible use cost.

SUPRA SOFT should be used in conjunction with the other North Woods® laundry products for a personally tailored laundry operation. SUPRA SOFT is specially formulated to be dispensed directly from the shipping container through an automated injector system into the laundry machine, thereby eliminating hand feeding from powder hoppers and possible spillage. SUPRA SOFT is completely soluble at all normal water temperatures and is effective at cold or warm (70-120 degrees) temperatures.

SPECIFICATIONS

| | |
|-------------------|---------------------|
| Appearance | Green liquid |
| pH | 2.2 |
| pH of 1% solution | 3.1 |
| Specific gravity | 1.012 (8.43lbs/gal) |
| Penetration | Immediate |
| Stability | 1 Year |
| Biodegradable | Yes |
| Foam | None |
| Fragrance | Clean |

PRECAUTIONS

Keep out of reach of children
Acidic liquid. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult a physician immediately. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. Do not induce vomiting. Obtain prompt medical attention.
