### MEATROOM DEGREASER

#### DESCRIPTION

This degreasing cleaner produces a rich foam which quickly penetrates and floats away grease, oil, dirt, scum, fats, proteins, food residues, tallow, process wastes and blood from all vertical and horizontal surfaces. This clinging foam emulsifies animal fats and oils quickly and economically.

#### SPECIFICATIONS

Color .....	Clear Liquid
Fragrance .....	Slight
pH .....	12.5
Flash Point .....	None
Grease emulsification-	Excellent
Biodegradability .....	Complete
Foaming .....	High, rich
Shelf Life .....	2 year min.
Freeze/thaw stability ..	3 cycles
Rinsability .....	Complete
Phosphates .....	None

Formerly USDA authorized A-1 rating in the Proprietary Substances and Nonfood Compounds.

**EXCELLENCE  
SINCE  
1964**

#### USES / BENEFITS

- **Perfect for use in all meat and food processing areas as well as industrial and institutional shower stalls.**
- **Free rinsing, non-flammable, non-corrosive.**
- **Foams with billions of bubbles.**
- **Clings to vertical surfaces.**
- **Emulsifies grease, oil, and soil.**
- **Breaks down fats, protein and waste.**
- **Penetrates any build up.**

#### PRECAUTIONS

Keep out of reach of children. For industrial and institutional use only by trained personnel. Contains alkaline silicates. May be harmful if swallowed. May cause eye or skin irritation. External: Flood with water and wash with vinegar. Internal: Give juice of lemon, grapefruit or orange freely, follow with olive oil. Eyes: Wash with 5% Boric Acid solution. If irritation persists, call physician.

#### DIRECTIONS FOR USE

First, scrape heavy accumulations. Food must be removed or covered.

**Manual application:** Use mop, brush or sponge. Dilute one part degreaser with twenty parts medium hot water. Apply and let stand five minutes. Rinse well.

**Spray application:** Use full strength in sprayer reservoir. Proportioning device should be set from 1 to 5 for heavily soiled areas; up to 1 to 25 for lighter soil. Apply and let stand five minutes. Use medium hot water. Rinse well afterwards.

**Shower stall cleaning:** Dilute, apply and rinse as above. For best results, follow with a mild acid cleaner for maximum removal of water minerals and soap scum. For maximum deodorizing action and control of bacteria and mildew, apply a disinfectant as a third and final step.
