Urine Catcher

REVOLUTIONARY ANTIBACTERIAL SPLASH FREE URINAL DEVICE

DESCRIPTION

New, patent pending, Urine Catcher - is the most sanitary urinal device ever to be developed. For years people have attempted to rid male restrooms of noxious urine odors. The problem is, the urine odor isn't only in the urinal. The majority of odors are caused by the buildup surrounding the urinal base - created by the splashing effect of the urine stream. So no matter what you do inside the urinal, nasty odors persist.

Urine Catcher ends all that! Urine stays in the urinal to be flushed and cleansed away, preventing unsightly build ups and horrific odors! Urine Catchers, not only have a great fragrance, they're antibacterial too! Make your restrooms look great, smell great, and become cleaner than ever before...use Urine Catchers and turn your bathrooms into urine free zones!

USES / BENEFITS

- Great Fragrance
- Splash Free
- Traps urine in urinal to be flushed away
- Traps Debris
- Antibacterial
- Attractive blue or green color
- Ends unsightly build ups
- Makes restrooms more sanitary
- Lasts 60 days
- Refreshes & beautifies

DIRECTIONS FOR USE

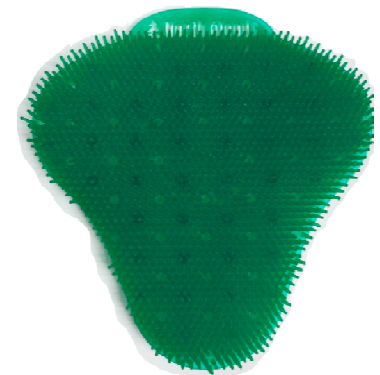

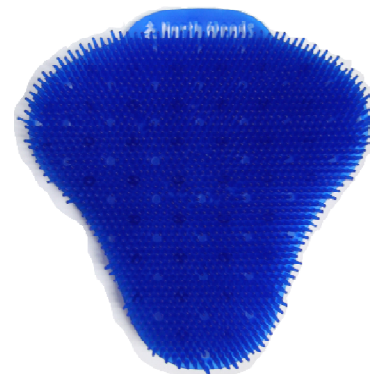

Place mat in bottom of urinal, and allow it's amazing performance to begin.

PRECAUTIONS

Keep out of reach of children.

SPECIFICATIONS

ColorBlue or green
 FragrancePleasant
 pH n/a
