Technical Data

WHAM

Sulphuric Acid Drain Opener

DESCRIPTION

Wham is a heavy duty sulfuric acid drain cleaner made from virgin sulphuric acid. It is five times the weight of water, which allows it to sink right through standing water - taking the active drain cleaning ingredients straight to the site of the clog! It immediately opens virtually any clogged drain in minutes. Wham Heavy Duty Drain Cleaner contains special inhibitors to minimize odors and protect your plumbing. It generates extreme heat, so it must be used carefully by trained service professionals. Wham is strictly for commercial and industrial use only.

USES / BENEFITS

- Super Strength
- 5 times the weight of water
- Opens clogs fast
- Inhibited to reduce odors
- Extremely effective
- Saves money

DIRECTIONS FOR USE

Commercial and Industrial Use Only.
