Technical Data

HEPA KILL

VIRUCIDAL DISINFECTANT DETERGENT

DESCRIPTION

This product is the latest breakthrough in disinfectant technology that combines the kill of much harsher disinfectants with the user friendly benefits of "quats". The best of both worlds comes together in Hepa Kill! This unique blend of two quaternary surfactants provide a disinfectant/cleaner with unequalled ability to kill a wide range of gram-positive and gram-negative microorganisms. Finally a "quat" product that is effective against HBV, HCV, VRE, MRSA, MDRSA, HIV-1 (AIDS), Herpes, and much more. It not only outperforms other disinfectants in the efficacy arena, but its cleaning ability is unmatched by other "quat" disinfectants. As a matter of fact, its cleaning capabilities rivals that of high quality, nondisinfected cleaners. Plus, its fresh fragrance is sure to please even the most discriminating of noses!

AREAS OF USE

- Patient/Resident Rooms
- Operating Rooms
- Sick Rooms
- Labs
- Emergency Rooms
- Blood Collection Rooms
- Shower & Restrooms
- Ambulances

**EXCELLENCE
SINCE
1964**

BENEFITS

- VIRUCIDAL - PSEUDOMONACIDAL
FUNGICIDAL - STAPHYLOCIDAL
SALMONELLACIDAL**
- SUPER CLEANER
 - LEAVES FLOORS FILM FREE
 - KILLS HBV, HCV, VRE, MRSA & MDRSA
 - KILLS CANINE PARVOVIRUS
 - KILLS HIV-1 (AIDS) VIRUS
 - KILLS HERPES SIMPLEX I & II
 - KILLS STREPTOCOCCUS PYOGENES (CLINICAL-FLESH EATING STRAIN BIRD M3)
 - KILLS NOROVIRUS (NORWALK VIRUS) & FELINE CALCIVIRUS
 - FRESH FRAGRANCE
 - COMPLYS WITH OSHA BBP RULE
 - NO HAZARDOUS INGREDIENTS
 - NO PHENOLS OR IODINES
 - NO SARA III INGREDIENTS

PRECAUTIONS

Keep Out Of Reach Of Children

DANGER

Causes eye and skin damage. Do not get in eyes, on skin, or clothing. Harmful or fatal if swallowed. If swallowed, call a physician immediately.

DIRECTIONS FOR USE

KILLING HBV & HIV-1(AIDS) VIRUS
Remove blood and other body fluids from surface by applying "DeVour" body fluid absorbent. Remove into sack liner using personal protection latex gloves, gowns, masks or eye coverings.

Apply Hepa Kill with mop, sponge, or cloth as well as soaking where necessary. Leave surfaces wet for 30 seconds for HIV-1, and 10 minutes for HBV & HCV. EPA states a ten minute contact time for other common types of viruses and bacteria. Mix fresh solution for each use, then discard solution.

Hepa Kill used on hard non-porous surfaces will tolerate a moderate amount of organic soil when used at 2oz. per gallon of water.

Hepa Kill is definitely The New Breed Disinfectant Cleaner for all your general disinfection requirements.

SPECIFICATIONS

FragranceFresh
pH 11.4
Color purple
Dilution 2oz. per gal.
Shelf Life one year
USDA Rating C-1
Effect on floor finish.....none
Film Residue.....none
